

## Calling all Alzheimer's Research UK supporters in Monk Monkton

**Would you like to join our new North West York Fundraising Group and help us raise money for dementia research in your area?**

Alzheimer's Research UK needs you to join our army of volunteers across the Yorkshire region, helping to raise vital funds and awareness for dementia research.

Our fabulous Fundraising Groups help us reach further into local communities and act as on-the-ground ambassadors for Alzheimer's Research UK.

We need enthusiastic volunteers to be part of our new and exciting **North West York Fundraising Group** and help with a wide range of volunteering roles within the group.

The groups organise local events such as coffee mornings, concerts and supermarket collections, plus they place and maintain collecting tins in local shops, raise awareness locally through encouraging businesses, clubs, community groups, schools and other individuals to support the charity too!

Dementia is our greatest medical challenge and today there are no survivors. But research can change that.

Our scientists are already making incredible discoveries and with your support, we can turn those discoveries into life-changing preventions and treatments.

With you and our Fundraising Groups by our side, we can make breakthroughs possible.

**For more information on getting involved with the North West York Fundraising Group or helping collect at the Harrogate street collection, please contact your local Regional Fundraising Officer, Claire Priestwood, by calling 07799 902428 or email [Claire.priestwood@alzheimersresearchuk.org](mailto:Claire.priestwood@alzheimersresearchuk.org)**
